

## Product Information

### Speick Natural Aktiv Shampoo Balance & Freshness (BDIH-approved natural cosmetic)

#### For oily hair

Mild cleansers gently purify with a rich foam. Selected plant-based active and moisturising ingredients gently normalise oil production and provide dynamic volume from the roots to the tips. High-alpine Speick extract from biologically regulated wild harvesting has a harmonising effect. Nettle extract soothes and normalises sebum gland function, preventing oil from building up quickly. Sugar beet extract is a natural moisturiser and smoothes and protects the hair against drying out, giving it a silky shine, a new vitality and volume together with wheat proteins. Precious fair trade argan oil from the Moroccan argan tree improves combability and makes hair noticeably soft and supple. A blend of essential oils gives hair a pleasant fragrance.

Contains only natural preservatives in accordance with BDIH approved natural cosmetics guidelines. No artificial fragrances or colours. The shampoo is pH-neutral, vegan and suitable for everyday use.

Optimum after-shampoo care: Speick Natural Active Hair Conditioner. Speick Natural Active Shampoo and Conditioner . perfectly balanced and complementary active and moisturising ingredients, together providing highly effective hair care.
