

Product Information

Speick Natural Active Foot Balm (BDIH-approved natural cosmetic)

Rich, easily absorbed balm to soothe, moisturise and condition tired and aching feet.

Organic soya oil and vitamin F provide the skin with extra moisture and prevent dryness. Sugar beet and sea buckthorn berry extracts soothe the skin and support the regenerative process. Horse chestnut and rosemary extracts stimulate the circulation and revitalise heavy legs. Antimicrobial hops extract optimises foot health, helps to prevent athlete's foot and has a mild deodorising effect. Each Speick product contains the harmonising extract of the high alpine Speick plant from biologically regulated wild harvesting.

Free from synthetic fragrances, colours, preservatives, silicones, parabens and mineral oil-based ingredients. Dermatologically and allergologically tested. Vegan.

Ingredients

Aqua
