

Product Information

Speick Natural Face Intensive Care Cream Medium (Certified Natural Cosmetics, BDIH)

Protects cell membranes + energises, + Q10

Normal and Dry Skin.

Revitalising skin care with Q10 for normal and dry skin. A carefully selected composition of premium quality ingredients provides optimal protection against environmental stresses after cleansing. The nutrient-rich extract of the baobab fruit is high in antioxidants and stems from a Fair trade women-project in Burkina Faso. Moisturising aloe vera and avocado oil optimise the skin's own hydro-lipid balance and support its vital functions. Sea buckthorn extract smoothes the complexion, leaving skin radiant and velvety soft. Reed extract strengthens the skin's own protective barrier.

Each Speick product contains the harmonising extract of the high alpine Speick plant from biologically regulated wild harvesting (kbW).

100% free from artificial fragrances and colours, mineral oil-based ingredients, silicones and parabens. Preserved with potassium sorbate and sodium benzoate. Dermatologically and allergologically tested. Vegan.

Tip: Massage gently into the face, neck and décolletage following cleansing.
