

Product Information

Speick Natural Face Intensive Care Serum (Certified Natural Cosmetics, BDIH)

Protects cell membranes + energises, + Q10

Demanding and Sensitive Skin.

This concentrated serum with rejuvenating Q10 instantly provides intense hydration and is especially suitable for sensitive areas such as around the eyes or for nourishing face and décolletage. The nutrient-rich extract of the baobab fruit is high in antioxidants and stems from a Fair trade women-project in Burkina Faso. Aloe vera stimulates cell activity and leaves skin fresh and radiant. Rich in moisturising vitamin F.

Each Speick product contains the harmonising extract of the high alpine Speick plant from biologically regulated wild harvesting (kbW).

100% free from artificial fragrances, colours and preservatives, mineral oil-based ingredients, silicones and parabens. Dermatologically and allergologically tested.

Tip: Apply to the sensitive area around the eye after cleansing. The serum can also be applied to the face and décolletage in addition to moisturising cream to deeply nourish the skin.
