

Product Information

Plant Oil Doctor's Soap *Walter Rau* Made from pure plant oils

Even more nourishing. Dermatologically tested.

The highest standards are being set for care and cleansing of extremely stressed skin. Environmental influences, chemicals, and above all, synthetic detergents attack the skin and remove natural oils and moisture unnecessarily.

Walter Rau Original Plant Oil Doctor's Soap was the first Doctor's Soap to be produced from pure plant oils. It is a top-quality skin care soap containing a high percentage of natural waxes and bees wax.

This huge proportion of natural, skin-caring ingredients can only be found in the unique Walter Rau Original Plant Oil Doctor's Soap. These substances start working on the skin as you wash and provide unrivalled care and protection.

Walter Rau Original Plant Oil Doctor's Soap is slightly perfumed with essential oils; the addition of anti-bacterial agents is deliberately avoided.

Ingredients

Sodium Palmate
Sodium Cocoate
