

Product Information

Honey Plant Oil Soap

Made from pure plant oils
With natural honey and beeswax for velvety soft skin.

Natural honey is a traditional, natural ingredient that protects and leaves skin silky soft. This gentle, nourishing plant oil soap contains natural honey and real beeswax, giving it an intensive, warm fragrance. It is mild enough for facial and extra sensitive skin.

Pure plant oil soaps from Speick natural cosmetics are crafted from pure, high-quality palm, coconut and olive oil in the time-honoured soap boiling tradition. They do not contain any animal fats. These soaps are especially gentle on the skin and produce a rich, creamy lather even in cold or lukewarm water. They are deep cleansing and leave the skin soft and supple. With moisturising wax cream and essential oils.

Ingredients

Sodium Palmate
Sodium Cocoate
Aqua
Sodium Oliviate
